NOTICE OF PROPOSED RULE MAKING

Adopted: March 21, 2005

Released: March 23, 2005

Comment Date: May 10, 2005

Reply Date: May 25, 2005

By the Assistant Chief, Audio Division, Media Bureau:

1. The Audio Division has before it for consideration a Petition for Rule Making filed by Clear Channel Broadcasting Licenses, Inc. ("Clear Channel"), licensee of Station WEGR, Channel 274C1, Memphis, Tennessee. Pursuant to Sections 1.420(g) and (i) of the Commission's rules,¹ Clear Channel proposes to change the community of license for Station WEGR from Memphis to Arlington, Tennessee, where Channel 274C1 would provide a first local service. Clear Channel represents that the proposed allotment of Channel 274C1 at Arlington is mutually exclusive with the current allotment of Channel 274C1 at Memphis. The proposal would not remove the sole local service from Memphis, which would continue to be served by numerous AM and FM stations. In addition, because Clear Channel does not propose a change in its transmitter site, the proposal will not result in any loss of service for Station WEGR's current city-grade service to Memphis.² Clear Channel represents that, if its petition is granted, it will file an application for Channel 274C1 at Arlington and construct the facilities as authorized. In order to accommodate the proposed change of community, Clear Channel further proposes to change the reference coordinates for vacant Channel 274A at Saint Florian, Alabama.

2. *Modification of FM and TV Authorizations to Specify a New Community of License*³ establishes that, in evaluating a change of community proposal, we compare the existing versus the proposed arrangement of allotments using the FM allotment priorities set forth in *Revision of FM Assignment Policies and*

¹ 47 C.F.R. §§ 1.420(g) and (i).

² Clear Channel states that it desires to increase the power and antenna height of Station WEGR(FM)'s facilities from its current maximum of 87 kW at 288 meters to the Class C1 maximum of 100 kW and 299 meters, resulting in a predicted net gain in area of 986 square kilometers and in population of 15,721 persons.

³ 4 FCC Rcd 4870 (1989), *recon.granted in part.*, 5 FCC Rcd 7094 (1990).

*Procedures.*⁴ Under those priorities, the existing allotment of Channel 274C1 at Memphis satisfies priority four, “other public interest matters.” The proposed allotment of Channel 274C1 at Arlington, a town of 2,657 persons, therefore should be preferred, because it would satisfy priority three, “first local service.”

3. Station WEGR currently provides a 70 dBu signal to 100 percent of the Memphis Urbanized Area, and the 70 dBu signal contour of Station WEGR at Arlington would continue to cover 100 percent of the Memphis Urbanized Area. Arlington is not located in the Memphis Urbanized Area. Clear Channel makes a showing that the proposed change of community to Arlington is entitled to consideration as a first local service under the requirements set forth in *Tuck*, but we tentatively conclude that no *Tuck* analysis is necessary, given the fact that Station WEGR is currently licensed to Memphis.⁵

4. In order to accommodate the reallocation of Channel 274C1 at Arlington, Tennessee, Clear Channel proposes to modify the site of Channel 274A at Saint Florian, Alabama, consistent with the *Notice of Proposed Rule Making* released in MB Docket No. 04-80 on March 26, 2004.⁶ In that *Notice*, we proposed the reservation of Channel 274A at Saint Florian, Alabama, for noncommercial educational use, pursuant to a petition for rule making filed by American Family Association. The Notice stated, *inter alia*, that a party may file comments identifying a site at which a proposed reserved channel could be assigned with facilities fully equivalent to the proposed reserved allotment. Clear Channel represents that the new coordinates that it proposes for Channel 274A at Saint Florian will permit Channel 274A to provide service to 133,399 persons within the 60 dBu contour of the proposed station, which is 7,141 more than the 126,255 persons that could be served from the original allotment site. In addition, Clear Channel states that from its proposed new reference coordinates, 20,089 persons (15 percent of the total number of persons served) would receive a second noncommercial educational radio service, as compared to 16,810 persons from the original allotment site. Clear Channel filed comments in MB Docket 04-80 on the same date that it submitted its petition for rule making in this proceeding. Clear Channel asks that the Commission modify the site of vacant Channel 274A at Saint Florian, Alabama, in this proceeding, without awaiting the outcome of MB Docket No. 04-80, in order to promptly provide a first local service to Arlington, Tennessee.

5. The proposed allotment changes could be made with the site restrictions and reference coordinates indicated below. Accordingly, we seek comment on the proposed amendment of the FM Table of Allotments, 47 C.F.R. Section 73.202(b), with respect to Arlington and Memphis, Tennessee. We also seek further comment on the proposed change in reference coordinates for Channel 274A at Saint Florian,

⁴ 90 FCC2d 88, 91-92 (1982). The FM allotment priorities are the following: (1) First full-time aural service; (2) Second full-time aural service; (3) First local service; and (4) Other public interest matters. Equal weight is given to priorities (2) and (3).

⁵ See Faye and Richard Tuck, 3 FCC Rcd 5374 (1988), and *East Long Angeles, Long Beach, and Frazier Park, California*, 10 FCC Rcd 2864 (MMB 1995).

⁶ *Anniston, Alabama, Saint Florian, Alabama, Patagonia, Arizona, Pima, Arizona, Somerton, Arizona, Sutter Creek, California, Westley, California, Olathe, Colorado, Horseshoe Beach, Florida, Live Oak, Florida, Asbury, Iowa, Keosauqua, Iowa, Merville, Iowa, Rudd, Iowa, Weiser, Idaho*, 19 FCC Rcd 5,333 (MB 2004).

Alabama, and on Clear Channel's proposal to implement the change in reference coordinates within this proceeding, rather than in MB Docket No. 04-80.

9. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to a rule making proceeding to amend the FM Table of Allotments, Section 73.202(b) of the Commission's Rules.⁸ This document does not contain proposed information collection requirements subject to the Paperwork Reduction Act of 1995, Public Law 104-13. In addition, therefore, it does not contain any proposed information collection burden "for small business concerns with fewer than 25 employees," pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198.⁹
